Comments:

I live at **Non-Responsive** (between **Non-Responsive**), and I've notice a foul metallic smell in the neighborhood for the past two weeks. I've smelled it all the way up to the 606 and as far south as Division St. It seems to be the worst in the mornings.

I reported it to my Alderman today and I thought I should check in with your office. I'm not sure if this smell has any impact on health, but it certainly seems so.

Ron,

Would IEPA be able to follow up on the complaint below? We're pretty sure it's attributable to General Iron, at 1909 N. Clifton Ave, Chicago, as we received a similar one this morning regarding "the awful metallic odors from the General Iron car compacting facility on Goose Island."

Could you please confirm if an inspector can get out there soon, and if so, report back to me on the findings?

Thanks,

Natalie
